

CGI-101 In-Line Ground Loop Isolator

- Prevents video signal distortion caused by ground loops and inductance
- Eliminates rolling black lines, vertical tearing and herring bone in video
- Hi-performance unit in a small, easy-to-install package
- Passive device – no power required
- Attenuates common mode voltage up to 12v p-p

ELECTRONICS INC
Video Security Since 1974

Product Data: CGI-101 In-Line Ground Loop Isolator

Model Number	CGI-101
Insertion Loss	<0.5dB
Bandwidth	20 Hz - 11 MHz, +0/-3dB
Input/Output Resistance	75 Ohm
Common Mode Rejection	>90dB @ 60 Hz
Ground Loop Voltage	Maximum of 12vDC @ 60 Hz
Transient Voltage Suppression	12 Vrms
Connectors	BNC on 6" RG174 leads
Dimensions	1 1/8" w x 1" h x 2 7/8" l

Specifications subject to change
