SPECIFICATIONS

MODEL		Rapport III / Rapport III-PRO	
Electronic Characteristics	Input Voltage	12V ±10%, above 1.2A	
	Battery	Lithium Polymer Battery (Inner Packaging)	
	Built-in Charger	Charging time	More than 6 hrs
		Operating time	More than 6 hrs(Max.8hrs)
Image	Signal System	NTSC / PAL	
	Video Level	1.0Vp-p, 140 IRE	
PTZ Operation Test	Protocol	Multiple	
	Transmission Speed	2400 ~ 115.2kbps	
	Transmission Mode	RS-422 / RS-485	
UTP Cable Tester	Tests	Continuity / Crossed Cable, and Breaks or Short Circuits	
Multimeter	AC Voltage	Max. 300V	
	DC Voltage	Max. 300V	
	Resistance	Max. 40MΩ	
	Conitinuity	Beeper is activated when the resistance is below 80Ω	
Dimension		88(W) x 126(H) x 40(D) mm	

FEATURES

- **Color CCTV Field Monitor**
- **Video Singal Generator**
- **PTZ Protocol Analyzer**
- **DIgital Multi Meter**
  Test & Measure Voltage, Resistance and Continuity
- **UTP Cable Tester**
  Test for Direct & Cross cable, continuity,
  discontinuity and Short on UTP cable
- **Video Recorder**
- **PTZ Controller**
  Control for PTZ cameras (Pan, Tilt, Zoom and menu Setup).
  And also analyzing control protocol if camera control by external device.
- **DVR Mode (Rapport III-PRO only)**
  MPEG4 Digital Video Recorder allows users to store video inputs
  on a SD card for future playback (Max. 10mins / 8files)

Multi Functional CCTV Tester

⊞ FUNCTIONS

➡ **CCTV Field Monitor**

The Rapport III features color CCTV field monitor.

It built-in 3.5 inch color Digital Type TFT-LCD monitor, supports both PAL & NTSC video signal format. Display video signal level (IRE) is helpful to check the video quality. Brightness & Contrast control.

➡ **Video signal generator**

The Rapport III features Video signal generator.

It outputs Color bar, Red, Blue and Green screen to allow technician to inspect video monitor or DVR. Support both PAL& NTSC video signal format.
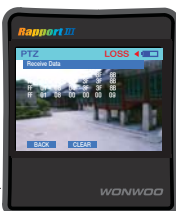

➡ **Multimeter**

Rapport III features Digital multimeter.

It combines the most basic instrument include a voltmeter, ohmmeter and continuity tester.

➡ **PTZ Controller**

The Rapport III features full function of CCTV PTZ Controller.

It controls & programs variety of Speed & Slow Dome cameras. This will allow CCTV installer to test or program PTZ cameras at the actual camera job site. It has multi protocol and programmable baud rate.

➡ **PTZ Protocol Analyzer**

The Rapport III features PTZ Protocol Analyzer.

It determines which protocol to control you PTZ cameras from PTZ Controller or DVR. This will guide CCTV installer to understand the protocol and find the fault device easily.

➡ **UTP Cable tester**

Rapport III features UTP Cable Tester.

It specified to quickly test a wire's comtinuity, miswiring and polarization in your network by using an attached remote terminator so you can easily test the cable whether before or after the cable is installed.

➡ **Digital Video Recorder (Rapport III-PRO)**

Rapport III features portable DVR function.

The **Rapport III-PRO** has a built-in MPEG4 Digital Video Recorder. It allows users to store video inputs on a SD card for future playback. This ensures proper CCTV installations.
